

## Nabaz'mob - TechRider

### 2a.Space

#### General:

- on a hard floor : wood or concrete (**not** carpet or fabric that is not sound reflective)
- dark surrounding : black floor, ceiling, walls, no sunlight
- sound-proof surrounding (the piece has very subtle and soft audio)

#### In case of a performance :

- stage : 100 rabbits on the stage : about 8m x 4m
- a control area on the side of the stage, or the back or middle of the audience : a 3 m wide table for two persons (AS & JJB) and computer + routers + mixing tables.
- Lights : about 2 side lights, 2 front lights, 2 back lights. Light level controllable from control area (see 3.Electronics)
- microphone and sound system (see 3.Electronics)

#### In case of an installation :

- installation space for rabbits : about 6m x 3m
- space for the audience to visit and sit down close to rabbits
- protection between audience and rabbits (potentially : security guard)
- some fixed lighting (ex : red neon, or equivalent)
- a control room backstage for computers, mixing table, routers
